

Evidence boundary

Current-source, historical-pilot, and paper-control evidence remain separate.

Current Core · f3d89e7

- author-checked strict-DAG instantiation
- 1 Core scheduler implementation
- 25/25 targeted tests · author-side
- conditional adoption seam disclosed
- no product-wide parity claim

Historical C30 · 40bd3f9

- 1 H-scaffold objective
- 5/5 projection identity
- 3/3 admitted identity
- 0 recorded graph-planner dispatches
- 5 stages / 3 heads

Untested

- comparative task outcomes
- total cost or latency gains
- deterministic model outputs
- full binding-schema conformance
- generality beyond Mentu

Paper-local controls · separate population

3/3 historical disposable controls; 1/1 current-Core control
